

# Vintex Safe Guard Barrier System Manufacturer's Certification

Products sold by Vintex under the Safe Guard Barrier Systems program are certified by Vintex to be manufactured free of phthalates, lead, cadmium, mercury and arsenic to the following levels:

## **Phthalate Free**

Manufactured without the use of phthalate plasticizers (DOP/DEHP, DBP, BBP, DINP, DIDP and DnOP) certified to contain less than 1,000 ppm (parts per million) per CPSIA guidelines, using GC-MS method.

## **Lead Free**

Lead content of less than 10 ppm per ASTM D-1976-07, using EPA 3052 digestion.

## **Heavy Metal Free**

Cadmium and Mercury content of less than 10 ppm, Arsenic content at less than 20 ppm, per ASTM D-1976-07, using EPA 3052 digestion

*Vintex periodically sends samples from production fabric lots to a third-party independent lab for verification that the above standards are being achieved. Copies of these laboratory certifications are available upon request.*
