

## **Intravenous Therapy Menu**

**Initial IV Experience: \$50 sitting fee + cost of product!**  
**Ask us about our Quick Drip Special**

### **Anti Aging Menu**

#### **Fountain Of Youth**

**\$75 Sitting fee + \$44 product cost**

Even if you choose to eat a well balanced diet, stay active, and get adequate rest, you will still age. Many experts will agree that a healthy lifestyle and good nutrition determines who we become, but your body may not be absorbing all the essential nutrients required to age as gracefully as possible. This specially designed formula gets into the blood stream and scavenges harmful oxidants and slows down cellular degradation.

#### **Skin Rejuvenation**

**\$75 Sitting fee + \$61 product cost**

This combination is rich in Glutathione. Glutathione is the most abundant naturally occurring anti-oxidant. It is ubiquitous, meaning that it is active in each and every cell. As we age, however, our glutathione activity slowly decreases. This decline makes our skin more vulnerable to the harmful aging effects of pollution and UV rays.

### **Energy Boosting Menu**

#### **Quick Drip**

**\$75 Sitting fee + \$31 product cost**

This is a low dose combination of vitamins and minerals that can be used as a quick “pick me up” or part of a regular program to support healthy function.

#### **Nutritional Boost**

**\$75 Sitting fee + \$40 product cost**

A stronger concentration of nutrients, this IV can be used in more moderate states of low energy. This can be used as needed or part of a regular program to combat general fatigue.

#### **Weekend Recovery**

**\$75 Sitting fee + \$37 product cost**

This is the perfect detoxifying IV for those who have busy social schedules and find it difficult to recover after a jam-packed weekend.

#### **Burnout**

**\$75 Sitting fee + \$64 product cost**

This treatment is geared towards more severe states of low energy or chronic fatigue. This is a concentrated dose of vitamins, minerals, and trace minerals to boost a severely exhausted system.

## **Immune Boosting Menu**

### **Immune Boost**

**\$75 Sitting fee + \$60 product cost**

This is a high dose combination of vitamins, minerals and amino acids to support and healthy functioning immune system. This is an incredible treatment to do regularly during our cold winter weather, when colds and flu impact us all. If you find yourself run down and sick often, this is the perfect therapy for you.

### **Mega C Antiviral**

**\$75 Sitting fee + \$93 product cost**

This is a super charged treatment that is best used when we are fighting a nasty cold or flu. The high dose of Vitamin C has immediate antiviral activity, especially against the influenza virus, without the negative uncomfortable side effects that high doses of oral Vitamin C can have.

## **Sport Performance Menu**

### **Muscle Relaxation**

**\$75 Sitting fee + \$35 product cost**

This formula is high in magnesium, which is the most powerful relaxation mineral available. Without it, our muscles would be in a state of constant contraction.

### **Performance Boost**

**\$75 Sitting fee + \$40 product cost**

A strong concentration of nutrients, this IV can be used to enhance sport performance.

### **Repair**

**\$75 Sitting fee + \$58 product cost**

This formula is helpful for tissue recovery after intense bouts of physical activity, for injury rehabilitation, and pain management.

### **Rehydrate**

**\$75 Sitting fee + \$13 product cost**

This is a quick IV treatment to replenish electrolytes after long sessions of physical activity.
