

January 31, 2017

The United States Senate  
United States Capitol  
Washington, DC 20510

To the Members of the U.S. Senate:

On behalf of the undersigned organizations, we strongly urge you to support Wilbur Ross to serve as Secretary of the U.S. Department of Commerce.

We believe that Wilbur Ross will bring a unique understanding of what it takes to fuel manufacturing enterprises to this vital role. Mr. Ross has a firsthand understanding of the challenges manufacturers face to remain globally competitive in today's economy.

Today's economic challenges demand an administration that can create well-paying jobs and out-innovate the rest of the world. American manufacturing also needs fairer taxes and reasonable regulations that do not unnecessarily hinder economic growth, as well as expanded trade and strong trade enforcement.

The nation's manufacturers and associations representing manufacturers urge a swift confirmation of Mr. Ross to serve as Secretary of the U.S. Department of Commerce.

Sincerely,

A.E. Boyce Company, Inc.
