

Swim Above Water Presents
Awareness Rocks!
Featuring Fan Favorite MN musicians:

GB LEIGHTON

Dear Business Friends,

Swim Above Water is an “**amoeba awareness**” foundation that’s mission is to bring our communities education, and updated health information on Primary Amoebic Meningoencephalitis (PAM) a deadly infection caused by the amoeba, Naegleri Fowleri. This amoeba lives in freshwater lakes, rivers, ponds and hot springs. Our hope is to save lives and teach everyone how to swim safety in freshwater sources while lowering your risk of contracting this deadly amoeba.

We are **seeking a donation item** for our **1st annual Awareness Rocks** event, to be held on **Saturday September 21, 2013** at O’Gara’s Bar & Grill in St. Paul MN.

Your donation in kind will help us to raise monies to continue our efforts on raising awareness.

We would like to come back and pick up the generous donation item from you on or before September 16, 2013.

You may contact us with any questions you may have at : swimabovewater@yahoo.com

Thank you for your support and consideration!

Sincerely,

Swim Above Water Team
24455 Evergreen Circle
