

---

To Whom It May Concern:

I confirm that I have had work done by Crest exteriors Construction Co. since about August of 2006.

I have found them to be very responsive to my needs for emergency repairs to roof and water repairs. They have bid on and been awarded small asphalt work, cement walk work, siding repair and carpentry work. Their staff is very hard working, conscientious and very courteous to our tenants. We have been very happy with their work and if other work arises we will call upon them to help us. I think you will find them to be fair and very reasonable in the way they charge for service.
