

Dear Mike,

I just want to thank you and Crest Exteriors for all your hard work in securing favorable results for both Dakota Meadows and Westview South Townhome associations. The Roofing and Siding projects in September 2007 and January 2008 have been completed without a hitch.

All the residents are extremely happy with the replacement of roofs, siding, and clean up by you and all the employees at Crest Exteriors. You have turned a potential nightmare into a positive experience. Myself, The Board Members and Residents never thought we encountered as much damage from wind and hail storms until you walked around with us and pointed out all the damage. This was truly an eye opening experience. We never would have thought to look in the areas that you pointed out. We thank you for your expertise and knowledge of both the building industry and insurance industry. Without your help I know the results would not have been favorable.

On both properties comments were received from residents on how helpful, respectful and quick the workers performed their jobs. You and the administrative staff were very helpful in keeping us informed on the progress on the properties as well as what the insurance companies were saying as well.

Thanks again for all your hard work and professionalism yielding great results !!!!!!!!!!!

Sincerely,

Ed Burek
