

Janice Gottschalk  
Southampton Homeowners Association  
Burnsville, MN 55306

February 14, 2011

To Whom It May Concern:

As the former President for Southampton Homeowners Association for 12 years of my 15 years on the Board, I've had much experience with Crest Exteriors. Our self-managed association consists of 19 buildings with 76 homeowner units. We've used Crest Exteriors for roofing, siding and other projects. Being self-managed, it's always a pleasure to find a contractor you can trust and that does a good job, minimizing future problems and any homeowner complaints.

Our experience with Crest has been very good. Their staff is courteous and conscientious. They've re-roofed most of our buildings over the years and re-sided all but 3 buildings with fiber cement siding. Our homeowners are happy and the Board has been pleased with the results. Crest has also been very good about fixing unforeseen problems that have come up even years after installation.

If you have any questions or would like further details about past projects they've done for us, feel free to call me at home (leave a message if I'm not there). My number is 952-435-1049.

Sincerely,

Janice Gottschalk  
Past President  
Southampton Homeowners Association
