North America Church Planting Conference Presented every January

The North America Church Planting Conference is an inter-denominational training event designed to equip church planters, coaches and supervisors to start, grow and multiply healthy, gospel-centered churches that result in the spiritual, social and cultural transformation of entire cities and regions.

Christian leaders from more than 30 countries, representing over 100 denominations and mission agencies, have taken this church planter training.

Plenary presentations, peer-group discussions, practical workshops and leadership forums will allow participants to formulate their own "culturally contextualized" values, mission, and church planting strategy. The *Seven Seasons of Church Planting* will be surveyed from pre-birth to reproduction.

The North America *Summer Seminar*, a streamlined version of this training (Basic Training & Coaches Training) is also offered in a northern or western USA location every July.
