Clinical Practice Guideline for Pressure Ulcer Prevention and Treatment

Literature Identified In Data Base Searches

The following citations were identified in the database searches (see Search Strategy http://internationalguideline.com/literature). This preliminary list of identified literature includes repeat citations. The citations below have been screened for initial eligibility and those that appeared to meet inclusion criteria based on title and abstract were selected for critical appraisal by the Small Working Groups. In addition to the citations below, additional works identified by members of the Guideline Development Group, Small Working Groups and experts in the field were screened for eligibility.

3. Pressure ulcers in the long-term care setting.
32. CMS wants to double list of conditions for which it will not pay a higher rate: focus is on hospital-acquired conditions not present on admission. ED Management, 2008. 20(7): p. 73-75.
77. CMS wants to double list of conditions for which it will not pay a higher rate. ED Management: The Monthly Update On Emergency Department Management, 2008. 20(7): p. 73-75.
