

Effortless letter opening

Tabletop Letter Opener DL200™

Get the power of a mailroom letter opener that's perfect for your office environment too. The DL200™ letter opener opens up to 250 letters per minute – now that's a time saver! Getting your mail opened and to the right destination is important. And now you can accomplish the job faster, easier, and with a system you can count on. It's automatic and will accept envelopes of many shapes and sizes – without having to sort them first. It safely removes a sliver from each envelope, protecting the contents and the operator. It's very simple to operate yet has advanced features typically seen on bigger letter openers.

DL200™ Letter Opener

Document integrity

Protect the contents of the envelope. The system is extremely precise and removes only a sliver of paper from the top of the envelope.

High speed

Save time by automatically opening up to 250 letters per minute of various shapes and sizes. The powerful belt transport sends your mail speedily through the system and once opened, deposits it into the removable envelope tray for easy distribution.

Adjustable cutter

Gives you the flexibility to choose the depth that you want your envelopes to be opened – helping to protect the contents.

Machine status

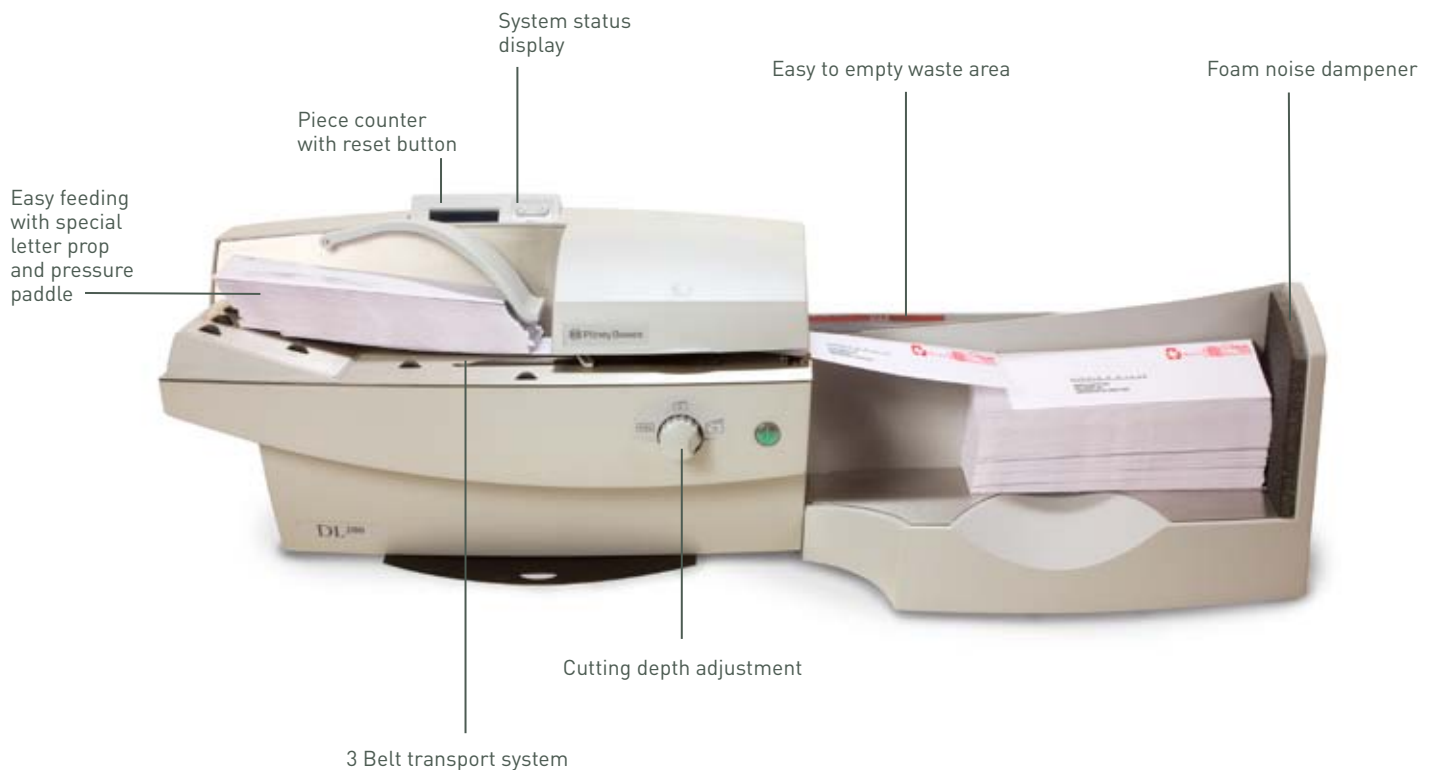

Equipped with an LED lighted power switch, you can see whether the system is powered on, in standby mode or requires attention.

Count incoming mail

You count on it, and it counts for you. The resettable counter tracks the number of pieces each time you process. Great for tracking incoming mail.

Specifications
