

SendPro® C300

Eliminate guesswork with a versatile sending solution.

Smart sending meets next-generation flexibility.

The SendPro C300 is a flexible, all-in-one technology for office mailing and package shipping. It's a complete sending solution that makes it easy to process mail and send packages all from one place. Design the solution to fit your needs today—and adapt it as your needs change in the future. With the C300, you'll be able to:

- Process daily mail and print postage quickly and accurately.
- Access USPS® rates which offer discounts of up to 39% off retail rates*.
- Compare options from three major carriers.
- Print shipping labels for USPS and other major carriers like UPS®.
- Track packages and costs across three major carriers.

With an easy-to-use color touchscreen display, the SendPro C300 makes it easy for your office to consistently choose

the ideal mailing or shipping option. The integrated 10 lbs. scale accurately calculates postage and shipping charges for all of your letters, flats and packages. The easy-to-use address book and integrated label printer ensures that your sending to the right place at the right price. Plus, additional options like a more robust scale and differential weighing help eliminate trips to the Post Office.

Make the confident choice, no matter what you send.

With the C300, you can consistently choose the ideal carrier, class or service to get your items delivered—all at the best price for your needs. Just weigh the item to see your carrier's options with a cost and estimated delivery time. A common address book works across all three carrier's and verifies the recipient addresses to ensure accurate delivery. Then, after selecting the ideal choice for your unique business needs, print a shipping label from the attached label printer or your network printer.

*Actual savings may vary depending on weight, zone and services requested.

Ship and track from anywhere.

Access SendPro® C300's shipping and tracking capabilities away from your mail area with secure access from your desktop computer. You'll always have a consolidated view including your cost history and tracking information for carrier shipments. By having all information on a single platform, the C300 eliminates having to use each carrier's website to process a package or track a shipment.

Maximize savings and eliminate overspend, every time you send.

The C300 is designed to save you and your office staff time and money in many ways. You can get automatic ink replenishments at savings of 20% off the retail price when you enroll in the AutoInk™ program. When shipping, you immediately save by getting access to USPS® shipping discounts for Priority Mail® and other package services. As a certified Ready Provider of UPS®, Pitney Bowes offers savings of 18% on UPS Next Day Air® and 9% off UPS Ground Commercial and Residential. With the C300, you are connected directly to your established carrier accounts for access to your prenegotiated rates.
