## SUCCESSFULLY CONNECTING BUSINESS AND COMMUNITY

A big part of the role of the Chamber is to represent the business and community at a variety of activities that enhance our local way of life. This month I thought it best to update everyone on what the discussions are at some of the meetings I have been to recently.

**Employer Jobs Roundtable.** This task force focuses on trying to solve the issue of the shortage of employees here in the mountain community. There are jobs to be had but the lack of people looking for a job, the lack of affordable housing, the lack of public transportation all contribute to the challenge that we have of finding and keeping good employees. Restaurants, retail stores, veterinarians, banks, offices are all impacted. We are working on creative solutions to help ease the problem but there is no single right answer. One suggestion was to raise wages. Great but higher wages means higher prices, sales decrease, jobs are lost, it is just not that simple.

One interesting thing we found is that employers who are co-located that only have part time jobs available work with their neighbors to share employees so both business can keep running efficiently and the employee can have full time work. Collaboration is happening and encouraged and seems to be helping the issue.

**Transportation Advisory Committee.** This group is working to improve and keep public transportation in the mountain community. The first item is a scheduled weekly service from the senior living apartments to local shopping areas. Currently these happen without a formal schedule but we are hoping to increase ridership and increase availability of transportation for seniors with a firm schedule of buses.

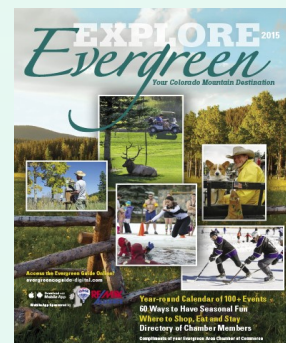

In regard to the transportation of employees to the area for work, talks are happening with RTD and the county commissioners office to see if we can get cross community public transportation-say Pine to Conifer to Evergreen and back to assist mountain community residents in finding and keeping work. Employers are also connecting to study the feasibility of a shared shuttle service from the Golden area.

**Monthly Meetings with Commissioner Rosier-**This month I found that although the county's unemployment rate is very low that the need for human services such as rent assistance, food pantry needs are still on the rise, meaning that although people are working it is still a stretch to afford their bills. The county is investigating a variety of solutions to combat the issue.

**Visit Denver-**I went to their partnership meeting just last week. Evergreen participates in Visit Denver because we want to encourage convention goers and vacationers to consider coming to the mountain communities for day or overnight trips. Our message is to encourage outdoor recreation paired with a vibrant business community to attract visitors.

The Evergreen Area Chamber of Commerce is focused on supporting both our business and residential community. A vibrant economic environment supports increasing property values, strong schools, and an active level of volunteerism that contributes to the way of life we all appreciate. Anytime you have questions about what is happening or you need a recommendation for services need the actual date of a public event-go to our website or call our office. We are here to help.

Find us at: [EvergreenChamber.org](http://EvergreenChamber.org) or call anytime 303-674-3412.

But now, science is able to provide insights into how to optimize our physical and cognitive health as we age. Join us to learn about research in the areas of diet and nutrition, exercise, cognitive activity and social engagement, and use hands-on tools to help you incorporate these recommendations into a plan for healthy aging. ## HIDEAWAY KITCHEN + BAR *COLORADO SERENITY'S* BUSINESS OF THE MONTH

Not that you need one, but the newly re-opened Hideaway Kitchen + Bar is a great reason to take a short hiking, biking, or driving excursion to Golden. Hideaway's new Executive Chef Nick Shankland has created a from-scratch menu for lunch, dinner, and weekend brunch. His take on fried chicken does away with the breading and the batter. Instead he deep fries a naked airline chicken breast and serves with broccolini and mashed potatoes, topped off with a ginger-leek-ponzu compote. Located at 25948 Genesee Trail Road, Golden; (303) 526-0556 [hideawaykitchen.com](http://hideawaykitchen.com)
