

Narthex Display Cabinet

1. The Narthex Display Cabinet provides groups or organizations within the church or community a means to showcase their mission.
1. If you are interested in showcasing items from an organization in which you are involved there is an online signup at www.flctulsa.org for a two – four week period.
2. Prior to setting-up your display, and if the display case is not empty, you will need to contact the person who set-up prior display. If no one is listed contact a member of the Arts Committee.
3. You are encouraged to identify your organization and any information about your display items which would be of interest to viewers.
4. The Narthex Display Cabinet cannot be locked and although this has not been an issue in the past be aware there is a risk involved.
5. The display case should not be left empty so the current and pending person having a display should coordinate removing current items and filling display case with new items. This transition needs to be done on or before Saturday.
