The retirees would like to welcome new members Tom Koehler, Charles Sanocki, Eugene Schroeder and Jerry Theis to the club.

If you are a retired IBEW Local 160 member you are more than welcome to join the Retirement Club for \$15.00 a year. Meetings are every 4th Wednesday of the month from October through May. They have a guest speaker and lunch is served afterwards. Meeting time is at 10:00 a.m.

March and April's meeting dates are: March 22, 2017 and April 26, 2017.

Please check out Local Union 160's new website. There are a couple of items that need to be critiqued but overall it is fantastic.

I would like to say thank you to Andy Kieffer for all your hard work you have put into this and continue to do so. You have done an excellent job Andy.

Andy also has put a lot of work into our Facebook page. Check it out.

IMPORTANT MESSAGE FOR ALL ACTIVE MEMBERS:

With the upcoming elections it is very important that all members **receive their ballots and vote.**

If you have moved please remember to call Local 160 of your change of address.

A Word or Two From Your Business Manager/Financial Secretary

Dear Sisters and Brothers:

On February 25, 2017 Local Union 160 held our Annual Steward Training. We had 46 stewards from our Co-ops, Mo-Valley, Municipals, and Xcel Energy.

Joe Herbulock and Dan Brennen from Gadtke Law Firm gave us a Workman's Compensation update. International Representatives Cheri Stewart and C.J. King were also present. C.J. is from the International Education Department, and Cheri is one of our 6th District Reps. C.J. talked about his time as a Radiation Protection Tech at the nuclear plant in Nebraska. He touched on what it was like not being in the union and how beneficial it is to be a union member. He also talked about the importance of being a steward and what the job of a steward should consist of.

Please be sure to carefully read the information in this newsletter about the upcoming elections. Not only is the election for the Local's Officers and Executive Board but also our two active units (Mo-Valley and Great River Energy), as the rules are different for the unit elections.

I was fortunate enough to attend Governor Dayton's signing of the Sherco Gasification Bill. This piece of legislation will help preserve and secure some of the good paying jobs for our members at the generating plant. See article in this issue for more details.

Just a quick note on work related injuries. It is very important to fill out First Report of Injury form. It has come to our attention recently that members are being discouraged from reporting an injury, by not only management but fellow members as well. If you do not fill out the proper paperwork it makes it all but impossible to pursue a Worker's Compensation claim later.

Have a safe spring!

In Solidarity,

Robert J. Boogren

I am proud to let the membership know that for the first time ever, Xcel Energy has agreed to use Local Union 160, Mo Valley Unit, Groundman for the upcoming outage at the Monticello Nuclear plant.

I had many meetings with the Company over the last few months on this issue. I would like to thank our Business Manager, Bob Boogren for his leadership, guidance and help in getting this finalized. Also, thank you to Mike Ringstad, Outside Business Representative, for his help as well.

Jon Michels, Outside Business Representative, and Mike Ringstad have started and will continue to contact the members to get them ready to report to the nuclear plant (Xcel will be taking fifty (50) groundman). The outage is to start in the beginning of April.

Hopefully this is the way the Company chooses to go in the future and it puts our members to work.

In Solidarity,

Kurt W. Zimmerman
Business Representative

16. The offices to be nominated and filled are: President, Vice President, Recording Secretary, Treasurer, Business Manager/ Financial Secretary and five (5) Executive Board members.

CAMPAIGNING

It is the duty of the union and its officers to comply with all reasonable requests of any candidate to distribute campaign literature to the membership **at the candidate's expense**. In order to avoid charges of disparity of treatment among candidates, it is advised that a local union inform all candidate in advance of the conditions under which distribution will be made and promptly advise them of any changes in those conditions.

Although Section 401 (c) of the LMRDA specifies distribution to "all members in good standing," a local union must also honor requests for distribution of literature to only a portion of the membership if such distribution is practicable. Each candidate may choose his/her own way of campaigning for election according to his/her own ingenuity and resources.

Each candidate must be treated equally with respect to the expense of such distribution. Thus, a local union and its officers must honor a candidate's request for distribution where the candidate is willing and able to bear the expense of such distribution. However, should the candidate be unable to bear such expense, there is no requirement that the union distribute the literature of the candidate free of charges. Since local unions have an affirmative duty to comply with all reasonable requests of any candidate to distribute campaign literature (at the candidate's expense), a local union rule refusing all such distributions would not be proper, even though applied in a nondiscriminatory fashion. In view of the fact that expenses of distribution are to be borne by the

Continued from previous page

candidate, a local union may not refuse to distribute campaign literature merely because it may have a small staff that cannot handle such distribution for all candidates. If this is the case, the local union may employ additional temporary staff or contract the job to a professional mailer and charge the expense incurred to the candidate for whom the service is being rendered. The local union may require candidates to tender in advance the estimated costs of distributing their literature, provided such requirement is applied uniformly.

The LMRDA does not and local unions may not regulate the contents of campaign literature which candidates may wish to have distributed by the local union. This is left to the discretion of each candidate. The local union may not require that it be permitted to read a copy of the literature before it is sent out, **nor may it censor the statements of the candidates in any way**, even though the statement may include derogatory remarks about other candidates. Furthermore, a local union's contention that mailing of certain campaign literature may constitute libel for which it may be sued has been held not to justify its refusal to distribute the literature, since the union is under a statutory duty to distribute the material. The use of union funds or employer funds to promote a particular candidate in a local union election is strictly forbidden. The prohibition includes anything of value contributed by a union or employer. The use of union stationery, supplies, or the IBEW logo by a candidate is forbidden.

Local Union funds may be used for notices, actual statements of issues not involving candidates, debates in which all candidates are invited to participate, and other expenses necessary for holding an election.

If the local union decides, a publication may be distributed in which **all** candidates are listed with factual record of their local union activities, committee assignments performed, offices held, and experience gained for and on behalf of the local union. This publication shall be prepared under the supervision of the election board.

Employers may not contribute funds directly or indirectly in support of the candidacy of any person for union office under any circumstances. The use of an employer's copying machine has been deemed to be a violation of the LMRDA. Campaigning on company time and use of a company mailing system have also been declared violations of the LMRDA.

Each bona fide candidate for office has a right, once within 30 days prior to any election in which he/she is a candidate, to inspect a list containing the names and last known addresses of all members of the local union who are subject to a collective bargaining agreement requiring membership therein as a condition of employment. **The right to inspection does not include the right to copy the list but does include the right to compare it with a personal list of members.** It is the intent of the LMRDA that such membership lists be made available for inspection at the candidates' option anytime within the 30-day period. The list is not required to be maintained continuously and may be compiled immediately before each election. The form in which the list is to be maintained is not specified by the act. Thus, a card index system may satisfy the requirements of the act. The list may be organized alphabetically or geographically.

Pictured at the podium is Local Union 160's Zachery Harm. Zach has been a member of Local 160 since July 2014. He is an Apprentice Substation Technician through the Missouri Valley Apprenticeship and Training Program.

Xcel Energy had asked Zach to give a presentation on February 16, 2017 to approximately three hundred (300) Missouri Valley contract members and managers of Xcel Energy on what kind of work is done in the Substation Construction Department.

Zach had done an excellent and professional presentation.

Congratulations Zach. Local Union 160 is very proud of you. Thank you for a job well done.

NATURAL GAS IS A “GO” AT SHERCO

Governor Mark Dayton signs legislation authorizing Xcel Energy to build a natural gas plant in Becker, Minnesota.

Gov. Dayton signed a bill authorizing Xcel Energy to build and operate a combined cycle natural gas plant at the Sherco location at a ceremony on Tuesday. The plant is a part of the company’s Upper Midwest Resource Plan and a major element of the company’s visionary fleet transition. The plan includes doubling renewable energy resources and achieving 60 percent carbon-free energy by 2030.

“The Becker natural gas plant is a key component of the Xcel Energy plan to cost-effectively transition our energy fleet to cleaner energy and more renewable resources,” said Chris Clark, president, Xcel Energy-Minnesota. “The bipartisan support this bill received is representative of the stakeholder-driven process that lets Xcel Energy maintain its commitment to Central Minnesota, deliver reliable electricity for the region, and invest in low-cost renewable energy for our customers.”

Legislation provides certainty to customers and community

The legislation demonstrates the importance of providing certainty for customers and the Becker community, which was facing the loss of jobs and tax bases associated with the retirement of two Sherco coal plants.

“The legislators we worked with understood both the importance of the plant to our regional electric system and to the local community,” said Rick Evans, director, State Government Affairs, Xcel Energy-Minnesota.”

Legislation is often used to provide state energy policy direction. Recent examples include wind energy to meet Renewable Energy Standards, community solar gardens and the conversion of several coal plants to natural gas in the metro area over the last decade.

“When we proposed our plan to transform our energy fleet in 2015 we believed we had a plan that met the needs of our customers, our company and our community,” said Greg Chamberlain, regional vice president, Xcel Energy-Minnesota. “Today’s bill signing is an example of what our company can do when we develop a solid strategy that can withstand the scrutiny provided by our regulators and other stakeholders. This is a day for everyone involved to celebrate.”

Driver for electric reliability and economic development

The electric system infrastructure in the area was built for extensive transmission capacity, so strategically locating the natural gas plant in the same area takes full advantage of previous investment ensuring reliability and cost containment.

The plant will be in service by 2026, coinciding with the retirement of the second Sherco coal unit. A specific project and construction schedule will be developed at a future date.

Easter is the Christian celebration of the resurrection of Jesus, but the seasonal chocolate eggs and the bunny who delivers them are nowhere to be found in scripture.

According to some sources the Easter bunny first arrived in America in the 1700s with German immigrants who settled in Pennsylvania and transported their tradition of an egg-laying hare called "Osterhase" or "Oschter Haws." Their children made nests in which this creature could lay its colored eggs. Eventually, the custom spread across the U.S. and the fabled rabbit's Easter morning deliveries expanded to include chocolate and other types of candy and gifts, while decorated baskets replaced nests. Additionally, children often left out carrots for the bunny in case he got hungry from all his hopping.

We hope all of you have a very joyous Easter Holiday.

THOUGHTS ON WORK

We are not a team because we work together. We are a team because we respect, trust, and care for each other.
