Overview of Spiritual Response Therapy

Spiritual Response Therapy (SRT) is a spiritual method of healing that uses universal energy for healing of traumas from past lives, present lives and also for subconscious blocks and programs.

Spiritual Response Therapy makes use of your muscle responses to bypass your conscious mind and negative **programming** to connect with **subconscious** and your guidance within. A pendulum is used as a movement amplifier and pointer as you communicate with your Higher Self using a special set of charts. You can replace old programs with positive energy and inner peace. The result of this work has assisted thousands of people to live clearer, more joyful lives.

Working with SRT, the multidimensional-self joins the physical-self. This is how higher communication is given and received, and higher thoughts flow through as a strong, intuitive knowing. SRT helps you to access your own Divine Wisdom, anytime you want or need it. You can End Emotional Turmoil, Have More Connected Relationships and Feel Radically Alive!
