education meets the real world”*

ROP CONSTRUCTION TECHNOLOGY CLASS STORAGE SHEDS BUILT BY ROP STUDENTS AVAILABLE FOR SALE

A 6' x 8' shed built by the ROP Construction Students was auctioned at the MBA Crab Feed on February 6, 2015. There were many bids received and the winning bid was from Rick Wells of the MBA. For those of you who placed bids and went home empty handed—here is another opportunity for you to purchase a shed, as well as anyone else who is interested in a very well built, wood framed storage shed.

The sheds are built each spring, on site, at Redwood High School. The sheds are available in various sizes, as well as any custom size. Proceeds from the sale of the sheds goes back into the class. The ROP Construction Technology Class is every Wednesday night through the end of May. Please visit and view the students working on the projects.

For information on the sheds please contact:
