

Did you know?

92% of Marin Builders Association members have 49 or fewer employees.

Nearly 70% of Marin Builders members are licensed contractors working to build their business and trade in Marin.

The **Marin Builders Association Toolkit Program** focuses on supporting the foundation of our business community by connecting our small business members with the local resources and service providers available to them only thru the Marin Builders Association.

Toolkit Sponsorship is designed exclusively for businesses who want to brand their company through the Marin Builders community and at the same time show support of the association and our small business members.

By becoming a **Toolkit Sponsor**, you are helping to build your company brand through the collective power of the Marin Builders, **AND** you're supporting other "smaller" members of the association. Even though they have fewer employees they are still the foundation of our association and our community.
