

April Showers Bring May Flowers

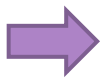

# April 2017 Newsletter

## FROM SAFETY:

- Per request, the list of driver DOT physical expiration dates are listed on the message board by the restroom entrances at the Fridley base. Please refer to this list if you have any questions about when your physical expires. This will also be posted in the driver breakroom at the Lois Iverson/Lyndale location once that terminal is up & running. Remember – it is *your job* to keep your DOT cards current!
- As the weather begins to get warmer, watch for bicyclists, joggers, dog walkers & children playing. Be alert, use caution, check blind spots & slow down!

Important

**No** bus parking and/or idling school buses on the street between MTN's two driveways at any time. Please adhere to this request.

## THE OTHER MTN

### TERMINALS:

*Did you know?*

That in addition to the Fridley terminal, MTN also has a terminal in Sauk Rapids. In late summer, we will be opening a third operating terminal in Minneapolis, which will help enhance our customer service & create new jobs for local residents.

**\*As we continue to expand, MTN is always on the lookout for new, great candidates to join our team! If you know of anyone who may be interested direct them to Lindsay Brock or Char Kennedy.**

**Mark Your  
Calendar**
