Midway YMCA St. Paul MN

Situated on University Avenue in the heart of St. Paul's Midway district, the new Midway "Y" is a neighborhood jewel promoting healthy and active living.

Opening just one year ago, this sparkling new building replaced an aging facility. The construction cycle was very quick, and MCC was pleased to have been chosen to install a Huebsch washer and dryer pair to process towels and various building maintenance items. The Midway YMCA offers individual and group exercise options along with many child care and wellness programs. Their unique Health Living Learning Kitchen offers hands on instruction on how to prepare food that can benefit your body.

David Dominick, District Executive Director at the YMCA of the Greater Twin Cities.

Water Conservation for On-Premise Laundries

Milnor's 60 lb. capacity washer-extractors feature RinSave® water conservation technology standard

Current economic conditions have forced healthcare facilities to focus on operating costs, particularly back-of-the-house operations – including the on-premise laundry, according to healthcare operators.

This innovative process called RinSave® eliminates up to two high level rinses (.33 gallons per pound processed) and up to 10 minutes in the wash formula. It saves labor, water, sewer and electricity which are the largest direct operating expenses in the laundry. RinSave® conserves water, further substantiates your facility's green program and is infinitely sustainable, without further investment.
