Portage Cleaners, Portage, WI & Badger Cleaners, Baraboo, WI

Dave Bieno is the successful owner and operator of laundry and dry cleaning plants in Portage and Baraboo, Wisconsin. The Portage plant processes commercial laundry goods for many hospitality and camp customers throughout the Wisconsin Dells and Lake Delton. This busy plant has grown steadily over the years and is now the predominant laundry provider in the region.

Retail dry cleaning is processed in the Baraboo plant and services four additional store locations. Minnesota Chemical has been a supplier to these operations for many years. At present Dave has been seeing excellent wash quality from the Pariser/SoapTech products used in the laundry operation. In the dry cleaning operation, Dave's recent transition to the Pariser/SoapTech Maxium dry cleaning detergent has resulted in overall superior cleaning and stain control.
