Hangers to Hems – Onalaska, WI

Scott and Roxanne Suhr have been providing quality dry cleaning, laundry and alterations services to the residents of the Coulee Region of Western Wisconsin and Southeastern Minnesota since 1995. Their modern air conditioned plant, located in Onalaska, WI, just adjacent to LaCrosse, services 7 store locations throughout the area.

Dry cleaning is processed utilizing both Perc and Hydrocarbon solvents. Scott and Roxanne offered that they have always washed a lot of garments but now are also using a more complete Pariser wet cleaning process as well. In addition to overall garment processing, the Suhrs also specialize in all sorts of alterations and repairs with an emphasis on brides maids dresses.

Daily production is handled by a dedicated staff of long term employees who know their craft and work to make things just so. When needed, Scott and Roxanne take a shift on the press or front counter.

Active in community affairs such as the Lions Club's Coats for Kids, and paired with their other commercial real estate holdings, the Suhrs are an integral part of the local business community.

Time For You To Go Back To School

Take Better Care of your Washers and Dryers

The Minnesota Chemical Co. will be holding **FREE** Service Schools and Vended Laundry Seminars on **Tuesday, October 6th** at our **Menomonee Falls, WI** location and on **Thursday, October 8th** at the **Best Western Capitol Ridge Hotel** in **St. Paul, MN**. Hours for both shows will be from 9AM to 3PM.

Representatives from Huebsch, Card Concepts, Huebsch Financial and Vend Rite will be on hand.

The Huebsch service school will be taught by a factory technician and will feature preventative maintenance and repair for dryers, top load, hard mount and soft mount washers.

Look for special show prices on parts, vended supplies, R&B carts, and Huebsch equipment. Lunch and beverages will be served.

For more information or to make reservations, contact Anita at **800-328-5689** or www.minnesotachemical.com

Standard Features Improve Wash Quality and Prolong Linen Life

RINSAVE® WATER SAVER

Milnor's RinSave® water saver feature is standard on all V-Series washers. The exclusive software allows for the basket to reach a precise G-force that "slings" the wash liquor (including water, chemistry, and soil) out of the goods after a wash step. This feature will save up to 2 rinses per load and fill/rinse time. Laundries with the RinSave feature will get more loads per hour to save you money!

Scan to see cost savings

SUPERIOR CYLINDER DESIGN

Milnor's tall rib construction and precise cylinder speeds combine to provide excellent MAF – Mechanical Action Factor – delivering excellent wash quality and reducing time-consuming and costly rewashes.

36026 cylinder shown

SAFE CHEMICAL INJECTION

Chemicals are injected in the rear of the machine (unlike certain brands where chemicals are injected near the front of the machine at eyelevel). Chemicals are diluted and flushed into the sump of the washer-extractor so that raw chemical does not come in direct contact with the linen or the stainless steel.

30022 V8Z chemical inlet shown

CONTINUOUSLY WELDED FRAME

Milnor frames are designed to prevent concentration of stress in one spot and all structural components are tied together for optimum stress dispersion. This proven structural integrity means your machines will last longer.

30022 V8Z frame shown

EXACTTRACT™ EXTRACTION OPTIMIZER

ExactXtract™ extraction optimizer monitors physical vibration of the machine allowing the machine to safely reach final extraction speeds up to 300Gs. This utility saving feature is standard on the following models: 36021 V7Z, 36026 V7Z, 42026 V6Z, and 42030 V6Z.

EFFICIENT MOTOR

A NEMA Premium® efficient inverter-driven motor reaches maximum extraction speed more efficiently, reducing peak electricity amperage draw compared to average commercial motors.

NEMA Premium® is a registered trademark of Baldor Electric Company.

Z RACKS

Heavy Duty Z-Rack 260601

Strength, Quality, and Rapid Delivery are the hallmarks of Quality Fabricators' reputation. Their products are designed and manufactured with quality in mind.

Quality Fabricators is constantly searching to improve its design and fabrication

process. The result is a top quality product unlike no other in the marketplace. Quality Fabricators American made garment racks are second to none.

In Stock in Blue @ \$130.25 ea.

Heavy Duty Z-Rack 260601 Product Specifications:

- This is the industry's standard all purpose garment rack.
- 5' uprights, with one 5' hang rail. 500 lbs. capacity
- Size: 63" L x 23" W x 66" H
- High quality durable, environmentally safe powder coated finished base.
- Available In five colors (Black, White, Silver, and Yellow)
- 14 gauge steel base
- 16 gauge upright bars and hang rail
- 1 5/16" outside diameter upright bars and hang rails.
- Heavy duty 4" grey non-marking soft rubber with TP center casters.
- Nestable - 12 racks will store in a 4 1/2' X 7' area.
- Ships K.D. (Knocked Down) to reduce freight expense.
- Single units will ship UPS or FedEx Ground

On Premise Laundries

More great ideas from Huebsch:

Huebsch 55# dryer fits through a nominal 36" door.

- Single phase reversing dryers are here. Normal breaker in 115/60/1 or 208/240/1. Put in a reversing dryer to reduce tangles and speed drying of large items.
- Direct Make Up Air option – now we can vent make up air direct to your new Huebsch dryer. No need to have a dryer enclosure. No more drafts.
- OPT Drying option – Overdry Protection Technology is moisture sensing drying. This reduces over drying – extending linen life, saves on utilities and means more loads per day. The load stops when it is dry!

Huebsch dryers on the assembly line in Ripon, WI.

Tools of the Trade

Activate: Versatile, Non-Chlorine Cleaner and Stain Remover

ACTIVATE is a highly versatile, powdered, safe to color oxygen bleaching agent blend designed for use as a multi-function cleaning and de-staining specialty chemical item.

ACTIVATE provides the Professional Dry Cleaner with a potent soak additive for controlled stain removal in mild to warm water conditions, from a wide variety of white and

colored garments, and it will also function well as an adjunct in wash loads where temperatures are lower than typically required for other oxygen bleaching agents.

USAGE: For garments, add 3-4 ounces of Activate to Top Loaders, and 4-5 ounces to 50lb Front Loaders along with laundry detergent. For soaking add 2.5 ounces/one gallon of warm water. Stir to mix. Rinse with clean, cool water.

ACTIVATE is packaged in 4 x 12lb pails/cases and 50lb (5 gallon) strip off lid pails.

Price: \$50.00 per 12lb Pail
