

## Our Associations:

The Minnesota Chemical Company (MCC) has been an allied member of The Association for Linen Management (ALM) and its regional chapters for many decades. Currently, MCC is an active member of the Upper Mississippi Valley (UMV) chapter of ALM. Focused on providing practical processing knowledge and best management practices UMV ALM is consistently ranked as a top chapter. In recent years, members from UMV ALM have been awarded the national Laundry Manager of the year and Allied Trades person of the year several times.

*Cindy Molko*

At the recent national meeting in Phoenix, another UMV ALM member, Cindy Molko, Director of Linen and Central Services for Mayo Clinic, Rochester was named ALM National President.

Also of interest, UMV ALM member Todd Jensen of the Ramsey County Correctional Facility (workhouse) recently began offering the ALM Certified Washroom Technician certification to inmates at the facility. Of the 8 men enrolled in the initial class, Todd is proud that 5 men successfully completed the course and received their certification. Now released, these skills and certification will hopefully lead to productive employment for the course graduates. Todd asks that any facilities looking for washroom employees give him a call at 651-266-1487 for referral to one of the graduates.

## MCC People

For the past 19 years Anita Skinner has been making the Minnesota Chemical (MCC) office run smoothly and efficiently. Since beginning as a part time employee in 1997 assisting her sister who was working at MCC, Anita quickly assumed a full time position as our front office administrator. Anita stays very busy answering and forwarding phone calls on our busy switchboard, processing many forms of paperwork as it pertains to invoicing and statements, coordinating and supporting all office technology and serving as MCC party planner and hostess for all MCC social gatherings. Anita and her husband Kelly enjoy the company of their many children and grandchildren living throughout the Midwest.

## Material Handling

When considering laundry carts and baskets for your operation, it is important to consider the many features and options that are available as the correct mix will give the chosen cart or basket the most overall utility. # Super Saver

Milnor's 60 lb. capacity model 30022 VRJ provides three ways to save: **time**, **energy** and **water**.

**That's good for our environment. And great for you.**

Milnor's E-P Plus® controller has pre-programmed wash formulas built right in to save you time. You can modify formulas or create and save up to 30 of your own. Our extra-large cylinder perforation means linens end the cycle retaining less moisture, speeding up dryer times to save energy. Save water with **Milnor's RinSave® Water Saver technology**. The VRJ can even fit through a standard 3'-0" door, which simplifies installation and saves space. That's even more savings. Super!
