

Our Customers

The Lint Trap Kenosha, WI

Cara-Mia Bremer has owned and operated The Lint Trap since 2003. The Lint Trap offers full service dry cleaning and drop off laundry service at their Kenosha, WI facility. Their commercial laundry serves many varied accounts and offers pick-up and delivery for both commercial and

individual accounts. Cara-Mia and her staff (Megan, Ashley, Sabrina & Debbie) boast one of

the cleanest and most modern laundries in Kenosha County. Many customers drive past multiple laundries to experience The Lint Trap's courteous service. In her efforts to keep her business up to date, Cara recently installed Huebsch 40# hard-mount and 24# soft-mount washers. Besides utility savings, the new washers offer added revenue opportunities and ADA tax advantages.

There's A Better Way to Save on Laundry.

Take control of your conservation efforts instead of leaving them in the hands of your guests. Milnor has a new solution for mid-sized hotels and hotel compounds looking to save both time and money. Milnor's five-module "short" tunnel washers can have a significant effect on your water and energy consumption, without compromising linen quality your guests deserve. We're talking about using as little as 0.3 gallons of fresh water per pound of room linen instead of 2 or more gallons in a large washer-extractor.

No matter what level of soil or class of goods, facilities across the country have seen remarkable improvement in wash quality with a dramatic reduction in water usage and energy. All-told PulseFlow® tunnels have

PulseFlow®
TECHNOLOGY

saved more than 500,000,000 gallons of fresh water so far. And now, if your facility washes 1,000 pounds of linens

an hour or more, you can take advantage of PulseFlow technology in a new, smaller tunnel.

On Premise Laundries

More great ideas from Huebsch:

Huebsch 55# dryer fits through a nominal 36" door.

- Single phase reversing dryers are here. Normal breaker in 115/60/1 or 208/240/1. Put in a reversing dryer to reduce tangles and speed drying of large items.
- Direct Make Up Air option – now we can vent make up air direct to your new Huebsch dryer. No need to have a dryer enclosure. No more drafts.
- OPT Drying option – Overdry Protection Technology is moisture sensing drying. This reduces over drying – extending linen life, saves on utilities and means more loads per day. The load stops when it is dry!

Huebsch dryers on the assembly line in Ripon, WI.

From Collars and Cuffs To the Really Tough Stuff...

The Laundry Two™ Are Right For You

When dealing with laundry stains, your reputation rides on getting the outstanding results *The Laundry Two* deliver.

RiteGo® laundry spray spotter quickly penetrates to absorb collar and cuff stains, perspiration, ground-in soil and more, all without brushing. Turn to **Laundry TarGo®** to remove any tough oil based stains that remain behind.

Use *The Laundry Two* with confidence on shirts, wedding gowns... anything you're washing or wetcleaning.

Both **Laundry TarGo** and **RiteGo** are chlorinated-solvent free, biodegradable, noncombustible and California 2013 VOC and Prop-65 compliant.

Use them to deliver stain-free laundry and wetcleaning. You'll build your reputation for quality - which is what keeps customers coming back.

MCC PEOPLE

Patrick Reed is the “Jack of all Trades” at Minnesota Chemical. Patrick began his career in 2005 in the shipping department. He quickly learned the inventory and procedures of our St. Paul warehouse and became an efficient member of the shipping department team. In time, Patrick transferred to our service department where he assisted in equipment installations and routine service calls at customer sites. As a new opportunity presented itself, Patrick assumed the supply department city desk position. Patrick took on this busy position processing incoming supply orders from MCC sales staff and customers with enthusiasm and skill. Patrick’s past experience in the warehouse suited him well for this position. Most recently, Patrick finds himself primarily assisting the equipment department coordinator while also supporting the efforts of the service department and supply order desk.

Service Tips

Replace your old Huebsch dryer chain drive

Eliminate greasy, noisy chain drive components in older Huebsch 50# and 75# dryers. We have many happy customers with this conversion.

If your dryer is otherwise in good shape, you can eliminate the chain with a kit for under \$400 plus shipping. Note that if you need a chain idler assembly, that part is no longer available and you must upgrade. (Make sure you are not facing other costly repairs such as basket, trunnion or standing pilot replacement before buying the parts. If you have expensive repairs, you may need a new dryer.)

For upgrade from chain to all belt drive, ask for Part # BDK5075. Call 800-328-5689 and ask for Barb in the parts department.

BEFORE: Old Huebsch Chain/Belt drive.

AFTER: New Huebsch All belt drive.

Dry Cleaners:

Galvanized Hangers from Indy Hangers

These bright, shiny galvanized hangers are made in the USA and offer several unique benefits:

- Enhanced tensile strength and tight tolerances make for a stronger hanger that has a longer life and recycles better.
- INDY strut hangers have excellent adhesive on the strut making it the perfect strut for cleaners who routinely transport garments to remote locations.
- No paint means no flaking and cracking.
- Excellent for steam tunnel processing.
- Bright and clean appearance “show” the garments well, thus improving your image.
- Available in many sizes and gauges for dry cleaners and industrial laundries.

13 ga. 20” Polo Knit Hanger now available!
