

## Our Customers

### Holy Family Residence St. Paul, MN

The Little Sisters of the Poor have been serving the elderly in St. Paul since 1883. Currently, the Sisters own and operate the Holy Family Residence and Jeanne Jugan Apartments which are named after their foundress, Saint Jeanne Jugan.

This beautiful combined facility located nearby the Mississippi River and Cathedral of St. Paul offers a continuum of care from independent living to skilled nursing care. All residents are assured a safe environment and a home where they are accepted with respect, compassion, love and the family spirit which is a hallmark of the Little Sisters.

*Derrick, Sandra, Kim and Administrator Sister Mary Elizabeth*

Over the years, Minnesota Chemical ( MCC ) has supplied the laundry and dietary departments with ECOLAB supplies, MILNOR and HUEBSCH laundry equipment and service. This immaculate laundry beautifully processes linens and personals for the 73 nursing facility residents. Residents in the 32 apartment units handle their own laundry in home type machines.

**PELLERIN MILNOR CORPORATION**  
Commercial Laundry Systems

Milnor has a washer dryer combination for your industry, healthcare, hospitality, health clubs, correctional and commercial. With the widest array of washers from 20# to 650# we have the washer for you.

Ask about RinSave™ formulas on certain models to save at least one rinse each load. Save over \$1500 per year in water and labor.

## Ergonomics

### Push-Pull Handle from STEELE Basket Company

**Reduce back strain and give your laundry workers something to cheer about!**

Install the simple but effective Push-Pull Handle on your vinyl and molded poly laundry carts and help reduce back strain. Their simple design and portability allows one handle to service multiple carts.

**Spring platforms for all carts keep contents at a constant height thus minimizing operator reaching and bending. Available in all sizes for vinyl and molded carts**

**Price: \$173.00 each** *Specify for use with vinyl or molded poly carts.*

## DISCOVER ULTIMATE LAUNDRY MANAGEMENT WITH **THE GALAXY™ 600 CONTROL.**

### Maximize Revenue

- Multi-Level Vend Pricing allows you to charge extra for warm or hot water, resulting in improved profitability.
- Cycle Modifiers offer customers additional options and flexibility for their wash needs while bringing laundromat owners another powerful, revenue-enhancing feature.
- Time-of-Day Pricing enables price variations throughout the day, helping you manage peak laundromat customer usage and compete for new customers.
- 24 Customizable Cycle Selections provide customers with options to optimize vended laundry machine wash results for various loads while creating added revenue opportunities for laundromat owners.

### Optimize Efficiency

- 200 G-Force Extraction provides maximum water removal, shorter dry times, lower utility bills and satisfied customers.
- 24 Cycle Combinations optimize washing, giving customers options and ensuring the best possible wash per load type.
- 30 Programmable Water Levels can be adjusted by segment and customer feedback for the most economical water setting, delivering the best wash results at the lowest expense.
  - Patented Water Guardian Leak Protection and Slow Drain Detection monitor leaks for both commercial washing machine drain and fill valves, eliminating wasted water and resources while also reducing preventative maintenance.
  - Computer Connectivity allows the laundromat owner to communicate and program multiple vended laundry machines quickly and easily from your pc or laptop.
  - Payment System Open Architecture allows for easy integration with your aftermarket payment system.

### Easy to Use

- Multilingual Operating Instructions increase laundromat customer acceptance and remove the expense of additional language signage.
- Easily Accessible Service-Related Audit Data helps you manage your commercial laundry equipment costs and ensure longevity.
- Service Diagnostic Troubleshooting lets you run factory tests, diagnose problems and quickly understand issues so they can be corrected.
- Computer Connectivity allows you to communicate and program multiple machines quickly and easily from your pc or laptop.

## Laundry Facilities

### Service Tips From Alliance

#### Dryer Symptom:

My dryer (tumbler) burner goes on for a few seconds and then shuts off. If I restart the tumbler, this symptom will repeat.

#### Possible Cause:

This is symptomatic of ignition lock-out. Ignition lock-out will occur if the Ignition Control Module (IEI) does not receive confirmation of ignition within 10-14 seconds. Under normal operating conditions, the heat of the burner flame will produce a small current which the IEI will detect via the igniter and ignition cable. Because of their close proximity to the burner, the igniter and cable can lose their connectivity ability. This will prevent the IEI from detecting the flame-induced current, causing a constant ignition lock-out condition.

Huebsch single and stack dryers

#### Dryer Routine Maintenance

- Thoroughly clean the dryer every year. Have an authorized service representative perform this maintenance if needed. Remove the dryer fronts and back.
- Clean the lint filter before drying each load. The lint filter may be washed if needed. Annually remove lint filter and screw to vacuum the duct under it.
- Inspect the exhaust duct for lint build-up after one year of service. Clean if necessary. Inspect every one to two years as required thereafter.
- Inspect the outside weather hood frequently to make sure dampers move freely, dampers are not pushed in and that nothing has been set against them.

# Deco-Print

## Uniform & Workware Customization

The Deco-Print line of transfers is an exciting new concept in textile decoration, delivering superior design and a quality alternative to embroidery and silk screening.

Deco-Print features the premier product, Digi-Line. Plus ... transfers and tagless solutions to address a variety of commercial and industrial laundry needs.
