

NORFLEX

Quality Films—Fast

Legacy Machine Wrap Stretch Film

Legacy high-performance blown stretch films are recommended for applications where strength and holding power are critical. Legacy film is available in clear and the original “Bemis Purple”.

We have years of expertise in the stretch film industry and can work with you to provide you the best solution for your applications.

For case studies and information on how Norflex can help you protect and hold loads, visit our website:

for 20 years**

**The ultimate film wrap
in load containment and
protection properties**

HD Handler Pre-Stretch Hand Wrap Film

Unmatched
strength
and load
retention

Pre-Stretch provides users with same (or better) load stability with less product, less physical energy, and greater control.

Our film can be pre-stretched as much as 340%. No width reduction during tensioning reduces number of wraps required to secure load.

Excellent film cling ensures film tails stay in place.

Good film clarity allows easier inspection of packaged products.

Superior load retention provides better load stability.

Performs well in extreme cold.

Facilitates compliance with Packaging Waste regulations—less use means less to dispose.

HD Handler is the original
“Bemis Purple” wrap,
an industry standard
for decades

Stabilizes
shifting and
protruding
loads

Available in
12”, 15”,
and 18”
90-gauge

Custom Blown Stretch Film

CASE STUDY

Problem: 20,000 pounds in rolls of bad film which our client couldn't run on their machines.

Norflex Solution: Film custom-made for your machines, with second-to-none, consistent quality.
