Fixed Auxiliary Motor Bracket Model 435

This "fixed" motor bracket is designed for those who prefer to use their own strength to lift up their motors. 35HP maximum or 150 lbs maximum.

Heavy duty. It offers 7" or 13" setback feature and is made of 713-alloy aluminum. Protected by a zinc rich primer and black power coat.

Can be converted to power lift by replacing rod and adding a 12v actuator.

Hole spacing: See below.

To provide adequate support for your Panther bracket, the Transom side of the bracket must be fully covered by the boats transom.

Overall dimensions 10.5" x 11" x 7". Wgt 21 lbs.

Hole spacing:

Across: Top Holes

7.750" between holes

Across: Bottom Holes

8.250" between holes

Down: 8.500" between holes

Picture shown is of 55-0035.
55-0435 is identical except for
actuator and motor.
