### Auxiliary Motor Lift Model 35LE

The auxiliary motor lift 35LE is the same rugged design as the powerful Model 35 with the exception of the convertible setback. The specially designed transom plate is made to fit the contoured transom of boats similar to the Ranger and Lund Pro V style boats.

Made of 713 cast aluminum, coated with a zinc rich primer and finished in black powder coat.

Powered by a 12V actuator and operated with a 12 ft water resistant 2 button push switch. Tilts your engine approx. 60 degrees.

All instructions and owners manual included.

To provide adequate support for your Panther bracket, the Transom side of the bracket must be fully covered by the boats transom.

Support weight: 150 lbs. Setback: 7.5

Product weight: 29 lbs.

Overall dimensions 10.25" x 8.25" x 8". Wgt 28.25lbs.

Hole spacing:  
Across: 6.0" between holes  
Down: 3.5" between holes.
