

Seagate Properties

Seagate Properties, Inc. is a professional real estate investment company, founded in 1984, involved in office, retail and land sectors of the commercial real estate business. We evaluate, acquire, renovate and operate real properties. It is our priority to maintain the highest quality, most productive and cost effective management and leasing operation within each market.

Seagate's corporate office is located in downtown San Rafael with asset management and support operations in San Francisco, San Jose, and Berkeley, CA.

We are proud to be a certified Green Business and place a high priority on using and implementing the latest in sustainable practices. With the first LEED Gold Certified property in Marin County, we strive to implement energy conservation measures in every facet of our business, right down to the use of recyclable products and supplies!

In December 2008, Seagate was honored by the Marin County Board of Supervisors as the Golden Spire Business of the Year.
