TIPS

- Attend the class that is appropriate for your level of yoga experience.
- Don't take a class on a full stomach.
- Come at least 15 minutes early before your first class for registration.
- Health conditions: previous surgery, injury, or pregnant? Before class begins, tell your teacher so they can help with modifications if needed.
- Don't be nervous. Most new students feel a little intimidated, but after a few classes you will feel at home.
