

# Project Brief

## S. 27th Street (Milwaukee County) Project Information

### About The Project

The project stretches approx 2.3 miles from south of W. Drexel Ave. to north of W. College Ave., in the cities of Franklin and Oak Creek in Milwaukee County.

Construction begins in spring 2015 and is scheduled to be completed in fall 2016.

Visit the project website at: [Projects.511wi.gov](http://Projects.511wi.gov)

The Wisconsin Department of Transportation (WisDOT) has begun reconstruction of WIS 241 (S. 27th Street), from south of W. Drexel Avenue to north of W. College Avenue, with scheduled completion late fall 2016.

Construction on the project scheduled for this year is outlined below:

- Reconstruction of the concrete pavement.
- Modifying median openings to improve safety.
- Adding bicycle and pedestrian accommodations.
- Improving intersections, adding and extending right and left turn lanes and updating traffic signals.

Construction to be completed during 2015 is scheduled to take place in two phases

#### Phase One (early spring to mid-summer)

- Install storm sewer trunk line.
- Adding temporary signals.
- Install temporary pavement on WIS 241 southbound.
- Cross culvert installations.
- Periodic overnight lane closures will take place on WIS 241 southbound to construct storm sewer crossings. One lane of traffic will remain open during this night work.

#### Phase Two (mid-summer to late fall)

- WIS 241 northbound traffic will be shifted to the existing southbound lanes while crews construct the WIS 241 northbound lanes.
- Reconstruct WIS 241 northbound.
- Two lanes of traffic will remain open in both directions.
- Reconstruct westbound lanes of Northwestern Mutual Way, Drexel, Rawson and College avenues.
- Reconstruct eastbound lanes of Riverwood Boulevard and Sycamore Street.

As work on the project for 2015 nears completion in late fall, traffic will be shifted to their respective lanes. In 2016, travelers should plan for work on WIS 241 (S. 27th Street) southbound and completion of median work.
