*Do any of your friends need our services?  
Forward this email to them!*

*Sincerely,*

**Kari Steinbrecher  
Steinbrecher Companies, Inc.**

## Pond Excavating

Could you use a holding pond for rain run off and Spring melting?

This time of year works well for digging those low, wet areas and creating beautiful ponds.

Ponds add value to your property as well as benefiting wildlife.

Perhaps you want a private fishing pond, or that skating rink for the kids this winter.

Whatever your needs may be, we can come give you a free estimate on transforming your yard.

We work with the DNR, the ARMY Core of Engineers, and the local unit of government (whoever necessary) to get the right permits and stay within their requirements.

## Need Landscaping?

Landscaping Services we provide:

- **Black Dirt and/or Grass Seeding**
- **Lot Clearings**
- **Retaining Walls**
- **Rough/Final Grade**

How about we haul in some nice black dirt? Then we can spread it out and seed it so you can have a nice, lush lawn come next Spring.

This can be a long process, so call us today to get the process started.

We can do several types of retaining walls. Call us today for our options!
