MONTHLY NEWSLETTER

November 2013

Winter Will Be Here Before We Know It!

As Minnesotan's we know...
WINTER IS AROUND THE CORNER

As this winters weather approaches, remember these crucial points when it comes to your winter preparations. If you haven't

done the following already, NOW is the time!

- **Winterize your Septic System**

Septic Maintenance/Repair: Ex. Fix any broken pipes.

Tips

Remember to leave the grass long over your septic to help prevent freezing.

DO NOT remove snow off septic tanks! The snow helps insulate your septic system, keeping colder temperatures from penetrating the ground above the tank.

Winterize Vacant Homes (this will help prevent pipes from bursting)

- **Winterize your animal Water Drinkers**

- **Clean out your basement/garage to create room for winter storage**

If your system does back up or pipes freeze, Give us a call. We can send a camera down your pipes to find out exactly where the problem is. We also have a jetter (like a pressure washer for pipes) that goes and eliminates blockages, including ice. If it is a bigger problem, we have the equipment to thaw frozen ground to repair your septic system and/or pipes.

When you hire Steinbrecher Companies; our family owned company; you are sure to receive professional, efficient, affordable service. We offer full Septic Services: Compliance Inspections, Designs, Installations, Maintenance and Repairs; of any size.

Please feel free to forward this email on to anyone you know who might also be interested in our services.

November Roll-off Special - We will match our competitors Roll-off pricing (see coupon at the end.)
