Yoga Nidra
with Neva Ingalls
THIS Friday,
March 3rd
6 pm - 7:15 pm

Yoga Nidra is becoming more popular as a form of guided meditation leading to a deep state of relaxation in which the body is asleep, but the mind is awake. Students are encouraged to make a resolution (Sankalpa) for themselves during this practice. In this meditative state the resolution gets implanted deep in the subconscious, which facilitates its realization.

After practice, you will emerge feeling deeply relaxed and centered. Research has shown that Yoga Nidra is a valuable addition to therapy for stress and anxiety related illnesses.

Did you know?

Stretching provides many benefits for the body. "Before you plunge into stretching, make sure you do it safely and effectively. While you can stretch anytime, anywhere, be sure to use proper technique. Stretching incorrectly can actually do more harm than good."

The types of movements that are found in "yoga, can help you be more flexible in specific movements."
